$0 \, \mathrm{cm}$ Wing, cut four for the whole Tux. Use black fabric 10 cm Eye patch here Derrier, only one needed for the whole Tux.. Use black fabric here. 20 cm **30 cm** Foot goes here The side part, you need two of them for the whole tux Use black fabric Side here Derrier goes here Other bib here Foot, you need four to make two feet Bib, cut twice for the whole Tux. Use white fabric Beak, cut twice

Tux Pattern Version 0.5, 25. Oct. 2004 http://www.free-penguin.org mailto:joerg.feuerhake@free-penguin.org

The whole Tux is vertically symetric. So here You learn how to make one half. The other half is just the mirror of this one here.

There are loads of tricks to sew this one properly thats why some pictures are attached here.

To implement the eyes it would be best to use painted or stiched patches and just attach them.

TODOS: Further development of the feet, they are now in development status, they have to be improved

Changelog:

- enhancements in curveature of the head
- further enhancements of head and behinds
 put some cm- and inch-rulers to it, to give sewers an idea of the original size
- improved beak form
- color marks are put within the patches
